Attention: Application Examiner

RE: Request for Confidentiality
Applicant: LoJack Corporation
FCC ID: IDI-RTU5

To Whom It May Concern:

Request is hereby submitted by LoJack Corporation to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- Detailed Block diagrams
- Detailed Operational/Functional Description

Rationale for request for confidentiality:

LoJack Corporation has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us. More so, restricting the knowledge of the transceiver reduces the risk of intentional tampering with the product and/or use of the product in applications not sanctioned by LoJack Corporation. Finally, publication of the information would compromise the security of the Stolen Vehicle Recovery system and restrict the ability for law enforcement to track stolen equipment which would not be in the public interest.

Sincerely,

A handwritten signature in blue ink, reading "Jesse Rhodes". The signature is fluid and cursive, with the first name "Jesse" and last name "Rhodes" clearly distinguishable.

Jesse Rhodes
Director of Engineering
LoJack Corporation
