RE: FCC ID: PYARAE-6\_ATCB001850

Attention: Timo Seppälä

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the SAR information in the manual is not complete. Please note that page 118 of the manual does not complete the SAR values section and it only references the EU limits. Please address the US limits for SAR and please complete the manual SAR portion by filing in the highest SAR values.
2. Please note that the schematics are not clear enough on all pages to make out the values and circuitry. Please provide clear schematics.

Dennis Ward

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
