Attestation

We, Nokia Shanghai Bell Co. Ltd., attest that this device under FCC ID:
2ADZRBEACON10 complies with device protocol requirements and operational
restrictions: for Indoor Access Point 6ID

1. Protocol attestation statement:

Statement describing the method the indoor access point uses to control the
associated client/subordinate power control.

Statement: The AP uses the IEEE 802.11 beacon signaling to inform the associated
client/subordinate device of its permitted maximum power.

The IEEE beacon contains a 6GHz Operation Information subfield. The subfield will
contain information identifying the AP as a LPI AP and a Maximum Transmit Power
Interpretation subfield.

2. Statement acknowledging device restrictions:

- a. Low-power indoor Access Point. Access Point operating in the 5.925-7.125 GHz
band shall be supplied power from a wired connection, has an integrated antenna, is
not battery powered, and does not have a weatherized enclosure.
- b. This device's operation will not be allowed on oil platforms, cars, trains, boats, and
aircraft, except that operation of this device is permitted in large aircraft while flying
above 10,000 feet.
- c. Indoor access points are prohibited for control of or communications with
unmanned aircraft systems, including drones.
