

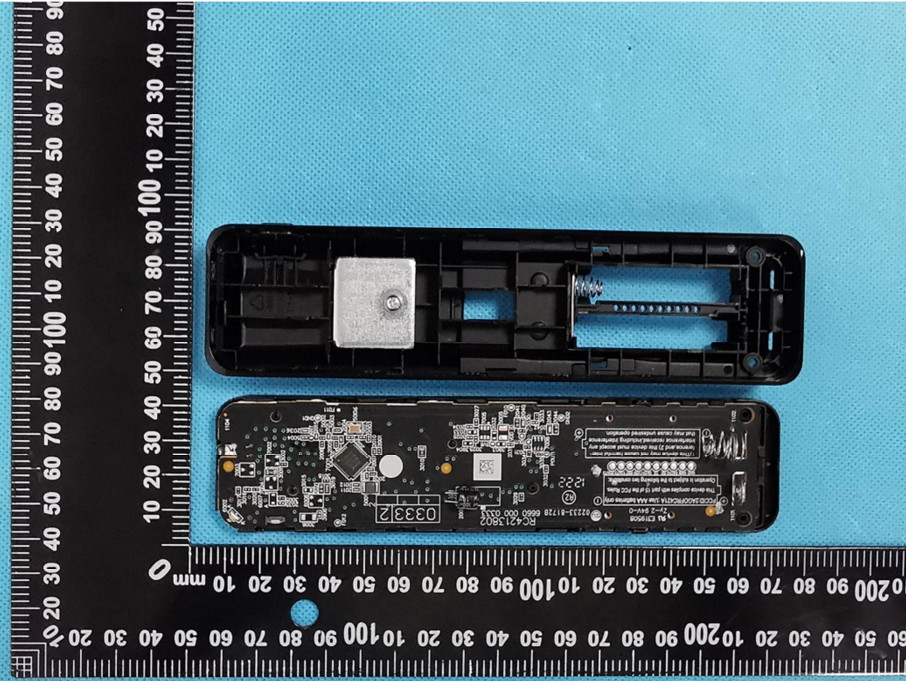

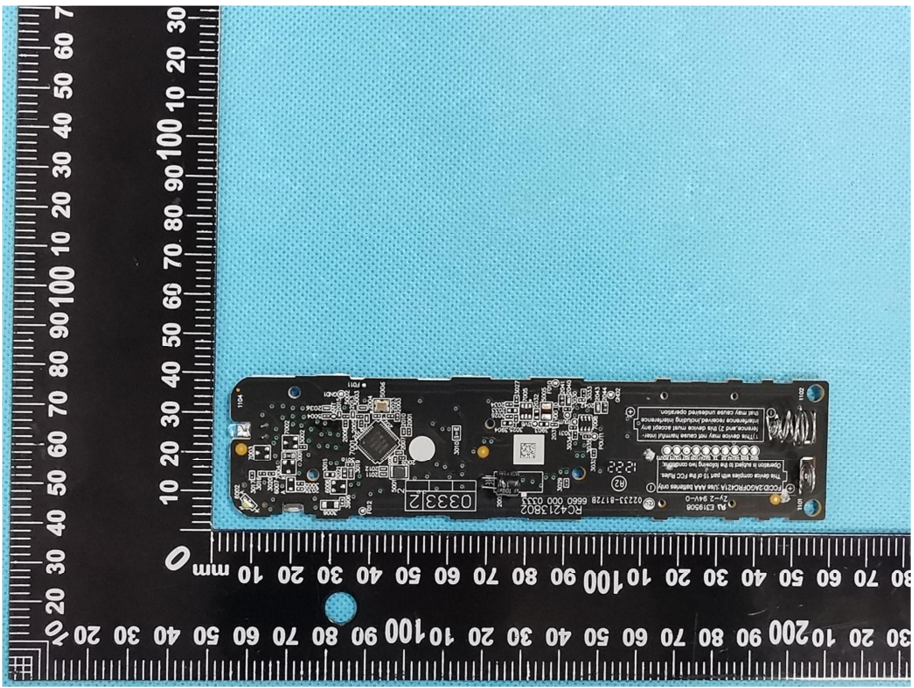

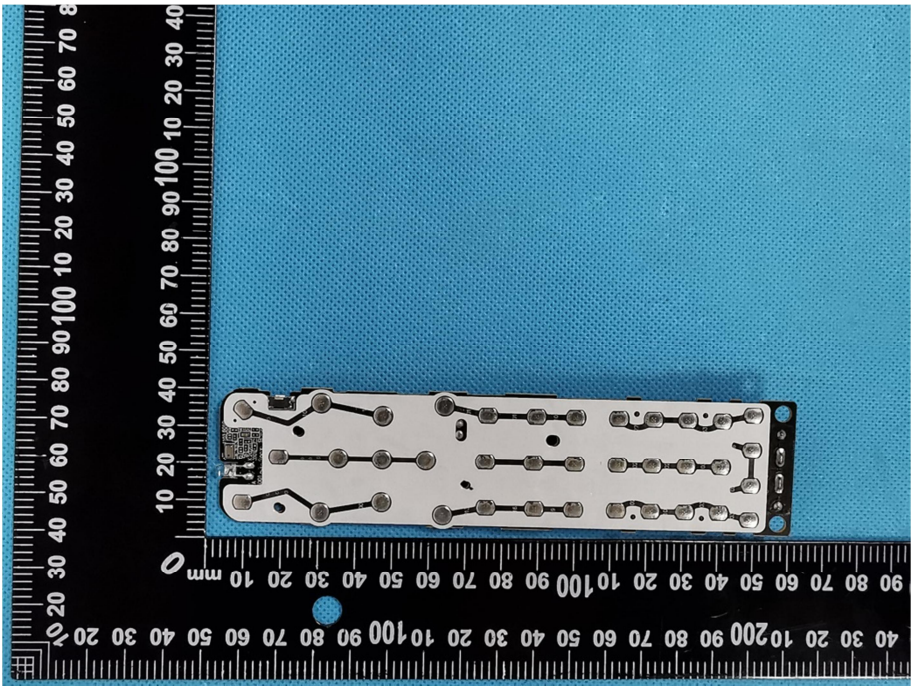

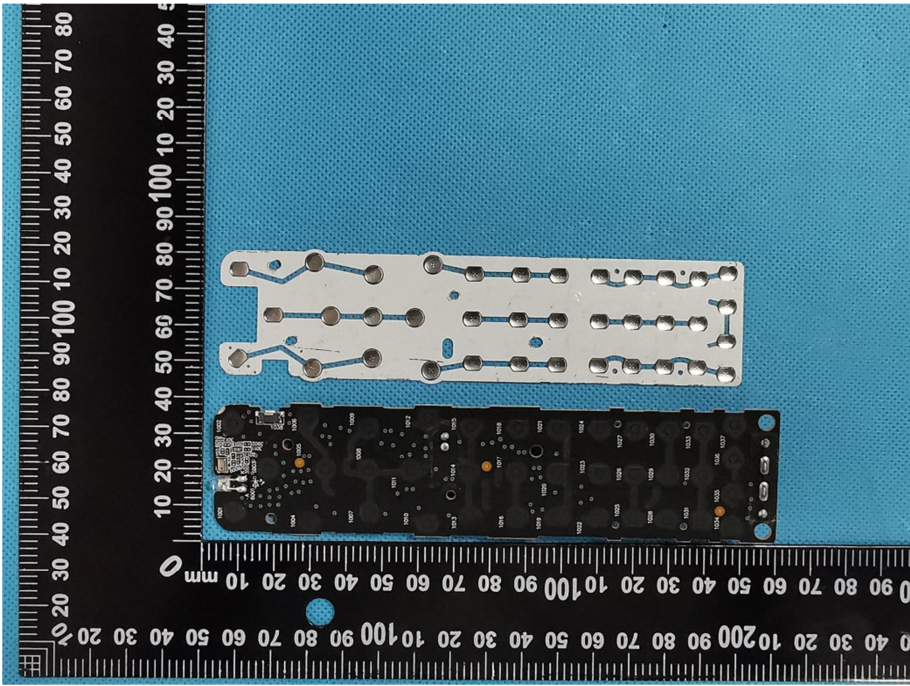

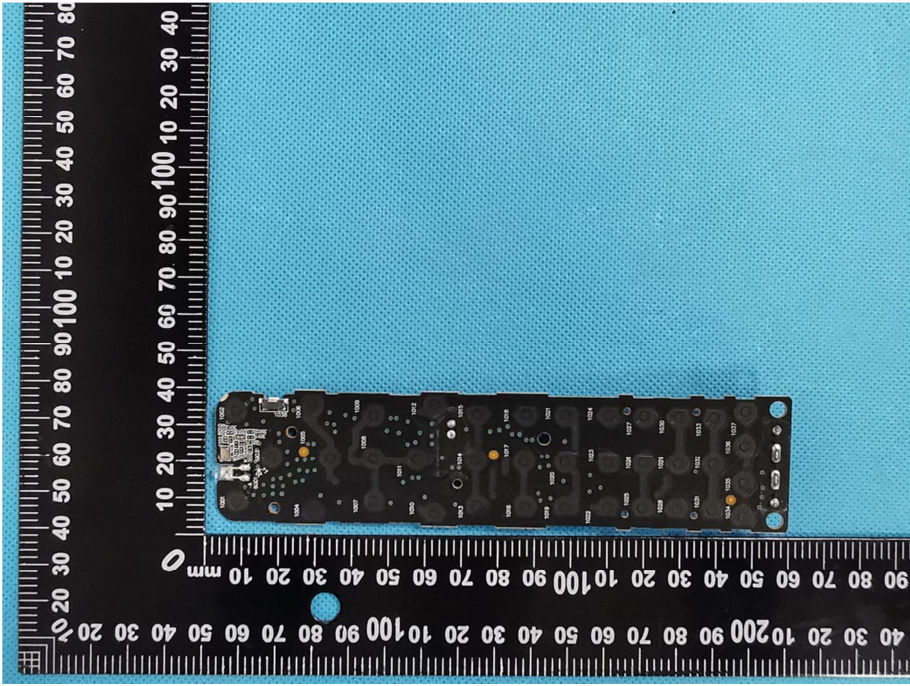

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	
<p>EUT Housing and Board View 2</p>	

<p style="text-align: center;">Solder Board-Component View 1</p>	 <p>A photograph of a printed circuit board (PCB) with various electronic components, including a large integrated circuit (IC) and several smaller components. The board is placed on a blue textured surface. A black ruler with white markings is positioned vertically on the left side of the board, showing measurements in millimeters. The ruler has markings from 0 to 100 mm. The board is oriented horizontally, and the ruler is placed vertically to its left.</p>
<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a printed circuit board (PCB) showing a different view, likely the reverse side or a component side. The board is populated with numerous small components, possibly solder joints or surface-mount components. The board is placed on a blue textured surface. A black ruler with white markings is positioned vertically on the left side of the board, showing measurements in millimeters. The ruler has markings from 0 to 100 mm. The board is oriented horizontally, and the ruler is placed vertically to its left.</p>

<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph showing a black printed circuit board (PCB) and a silver metal component with two rows of solder joints. The PCB is populated with various electronic components, including resistors, capacitors, and integrated circuits. The metal component is positioned above the PCB, with its solder joints aligned with the board's pads. A black ruler with white markings is placed below the components for scale, showing measurements in millimeters. The background is a blue textured surface.</p>
<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph showing a black printed circuit board (PCB) populated with various electronic components, including resistors, capacitors, and integrated circuits. A black ruler with white markings is placed below the board for scale, showing measurements in millimeters. The background is a blue textured surface.</p>
