Caution

Thank you for purchasing BDF product. Please read this manual carefully before using the product to gain maximum benefits.

1.This device is a high-precision electronic product .Do not attempt to disassemble, repair or modify the product and power supply. You will no longer enjoy warranty service due to the disassemble and modification of the product.

2.When using this product for the first time, please charge it for more than 8 hours and discharge completely .The device can achieve the best battery performance after 3 cycles. 3. Do not drop, collide, drip, splash water or rain on the product;

4.Do not use this product under the following conditions: high temperature ,low pressure, low temperature, humidity, dust, high magnetic field strength and long- term exposure to direct sunlight;

5. This product can be used in an environment with an altitude of 3,000 meters below sea level, a temperature of 0 ° C to 35 ° C, and a humidity of 5% to 95%;

6.When charging this product, please keep away from inflammable and explosive objects and keep it under ventilation and good heat dissipation environment;

7.Do not allow the product to continue to be connected to the power supply after charging is completed. This product is a consumer electronic product. It is not an industrial-grade design that can be connected to the power supply over time .If the power supply is damaged due to timeout, you will no longer enjoy the warranty service;

8. Use of third-party power supplies, data cables and other accessories that are not approved by the manufacturer may cause danger and violate the warranty regulations of this product;

9.To prevent loss of important data, please back up regularly. Especially before the firmware upgrade or before the product is sent for repairing. The company does not assume any responsibility for the loss of data;

10. The intellectual property rights of third-party software and applications belong to the corresponding third-party software manufacturers .You will bear the relevant risks of incompatibility and abnormal functions caused by your personal installation of third-party software.

Tips

◆Please note the nominal battery duration refers to the longest time can be achieved with minimum power consumption. The real time power duration might be varied in different usage scenario.

◆Volume calculation:

1.The volume calculation is different between hardware manufacturer(1MB=1000KB) and operating system (1MB=1024KB).

2.Android system occupies some of the disk space.

◆The nominal battery capacity is count calculating the actual charge amount during charging and discharging, deviation exist by using third-party tools to detect the

battery capacity.

We consistently uphold that products and services are important.

Thank you again for choosing BDF products.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction

Specific Absorption Rate (SAR) information:

This product meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: P37 (FCC ID: 2BLZW-P37) were also tested against these values. The highest SAR values, the accessory worn on the body are 0.660 W/kg. This device was tested for typical body-worn operations with the product kept 0cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0cm separation distance between the user's body and the product. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0cm must be maintained between the user's body and the product, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components.

Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
