Regulatory Information

The following sections contain notices for various countries:

CAUTION: This product is intended for use with FCC/CE certified computer equipment. Please check the equipment operating/installation manual and/or with the equipment manufacturer to verify/confirm if your equipment is suitable prior to the installation or use of the product.

Federal Communication Commission (FCC) Interference Statement Notice for USA FCC Part 15: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

CAUTION: To comply with the limits of the Class B digital device, pursuant to Part 15 of the FCC Rules, this device must be installed with computer equipment certified to comply with Class B limits. All cables used to connect to the computer and peripherals must be shielded and grounded. Operation with non-certified computers or non-shielded cables may result in interference to radio or television reception.

MODIFICATION: Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the device.

Federal Communication Commission (FCC) Radiation Exposure Statement
Power is so low that no RF exposure calculation is needed.

Notice for Canada

This Class B digital apparatus complies with Canadian ICES-003 and RSS-210. Cet appareil numérique de classe B est conforme aux normes canadiennes NMB-003 et CNR-210. This device complies with Industry Canada licence-exempt RSS standard. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesirable operation. Cet appareil est conforme avec Industrie Canada RSS standard exempts de licence. Son fonctionnement est soumis aux deux conditions suivantes :
 - (1) Le matériel ne peut être source d'interférences et
 - (2) Doit accepter toutes les interférences reçues, Y compris celles pouvant provoquer un fonctionnement indésirable.

CANADIAN CLASS B STATEMENT:

This digital device does not exceed the Class B limits for radio noise emissions from digital apparatus as set out in the interference-causing equipment standard entitled "Digital Apparatus," ICES-003 of the Department of Communications. Cet appareil numérique respecte les limites de bruits radioélectriques applicables aux appareils numériques de Classe B prescrites dans la norme sur le matériel brouilleur: "Appareils Numériques," NMB-003 édictée par le ministre des Communications.

MODIFICATION: Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the device. Toute modification non approuvée par le fournisseur de licence de l'appareil peut entraîner l'annulation du droit de l'utilisateur à utiliser l'appareil.

FAQ (Frequently Asked Questions)

Perform the following trouble-shooting steps before sending it for servicing. For more information, please refer to support.creative.com

The Creative MUVO 20 cannot be powered on. What should I do?

- Ensure that there is enough battery power on the speaker.

Attach USB power via a USB port (from a computer or Laptop) and attempt to power it on again.

- The internal battery may be depleted. Attach USB power via computer or Laptop and charge for about 1 hour before attempting to power it ON again.

There's no Bluetooth link established between my device and the Creative MUVO 20. What should I do?

- Ensure that your Bluetooth enabled device supports A2DP profile. Refer to its user's manual on how to enable (turn on) the Bluetooth functions and its capabilities.

You may also try the following:

- Delete the Creative MUVO 20 name entry from your Bluetooth device paired memory list and perform the steps in **PAIR IT** (NFC pairing or Manual pairing) to re-pair your device with Creative MUVO 20.

- Ensure that both your Bluetooth device and Creative MUVO 20 are not connected to any other devices.

- On some Bluetooth device, you may need to select Creative MUVO 20 as your default output device after pairing is complete**. In the event of the appearance of two Creative MUVO 20 instances, select the one with the "Stereo" label as music output and the other for voice communications.

CAUTION: Risk of explosion if battery is replaced by incorrect types.
