

## WIRELESS KEYBOARD ----Manual

Keyboard FCC ID: 2AWM4KLIMCHROMAWL

Dongle FCC ID: 2AWM4KLIMDONGLE

KLIM Chroma 2.4G wireless

Wireless technology: 2.4G wireless technology

Wireless distance: up to 10M

Mini Receiver: Plug and Play

Battery capacity: 1300mAh

Charging time: 4 hours

Working voltage: 3.7V

Key life expectancy: 10 million times

Waterproof rating: IP3

Noise Reduction: Internal Noise Reduction Design

Multimedia: FN multimedia design

Light effect design: always bright / breath / no light

Adjustable lighting: speed adjustment /adjustable brightness

Energy saving mode: no operation 60S sleep mode

Travel mode: power OFF / ON switch design

Keyboard size: 440X149X22MM

Button conflict: 29 buttons without conflict

Tab,Caps,L\_shift,L\_ctrl,L\_alt,Space,Q,W,E,R,T,A,S,D,F,G,Z,X,C,V,B,J,K,L,L\_Enter, ↑,↓,←, →  
**weight**

Keyboard weight: 480g

USB cable: 25g

Receiver: 2g

Overall weight: 680g

### Operating system requirements

1. Support 3 kinds of LED  light effect FN+ combination: always on, breath, dark

2.

3. Support **FN+**   speed adjustment, FN+ **brightness**

adjustment

### **FCC statement**

This device complies with Part 15 of the FCC Rules: Operation is subject to the following two conditions:

1. This device may not cause harmful interference and
2. This device must accept any interference that is received, including any interference that may cause undesired operation.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications to this unit not expressly approved by the party responsible for compliance

could void the user's authority to operate the equipment.
