etting Up Your iPhone

Compatibility

The car charger is only compatible with iPhone 12 series or later phones running iOS 14.5 or later with Two-Facto Authentication turned on.

1. Turn on Two-Factor Authentication for your Apple ID On your iPhone: Go to **Settings** > your name > **Password** & **Security.** Tap **Turn On Two-Factor Authentication**. Then tap Continue and follow the onscreen instructions On your Mac: choose Apple menu > System Settings (or System Preferences), then click on your name (or Apple ID). Click Password & Security. Next to Two-factor Authentication, click Turn On and follow the onscreen

instructions. On the web: Go to appleid apple.com and sign in using your Apple ID. Answer your security questions, then tap

Continue, Tap Continue when you see a prompt to update account security. Then tap Update Account Security and follow the onscreen instructions.

2 Turn on Find My

A. Go to Settings. B. Tap your name, then tap Find My. C.Tap Find My iPhone and turn on Find My iPhone.

4. Connect to a stable Wi-Fi or cellular network

5. Turn on Location Services

Go to Settings > Privacy & Security > Location Services > turn on Location Services

Getting Started

Short press the car charger's power button once and a

To power off, short press the the power button twice, then long press the power button; When you hear a beep, it indicates that your "car charger" has been turned off. If your car charger is not paired within 10 minutes, you will hear a beep and it will automatically power off. Power on

To reset, short press the power button 4 times, then long press the power button until you hear a beep, it indicates the factory reset has been completed.

Pairing Your Car Charger

1. Ensure your iPhone is set up (see "Setting Up Your IPhone" above) and your car charger is powered on

Open the Find My app.
 In the Items tab, tap Add New Items

4. Tap Other Supported Item (your iPhone will search for your car charger).

5. Once your car charger is detected, tap **Connect**.

Follow the onscreen steps to name it and register it to your Apple ID.

. Ensure your car charger appears in Items. If not, forget the device, perform a factory reset on the car charger (see "Getting Started > Factory reset" above), then reconnect.

* Do not leave Find My app while pairing car charger.

Locating Your Car Charger

Locate your car charger via the map

1. Open the Find My app.

Tap the *Items* tab.

3. Select your car charger in the *Items* list. 4. Tap Directions to open the location of your car charger and get directions in the Maps app.

Play sound alert

1. Open the Find My app.

2. Tap the Items tab.

Select your car charger in the Items list and tap Play Sound*.

*The sound alert will only play if your iPhone is connected to a network, and your car charger is in Bluetooth range of your iPhone (approx. 160f/50m).

Set up Notify When Left Behind

If your car charger is not in Bluetooth range of your iPhone for a period of time, you will receive a notification that your car charger has been lost (if you set up a name, the name will be displayed, otherwise it will show car charger).

- 1. Open the Find My app.
- Select your car charger in the Items list and scroll down. 4. Under Notifications, tap Notify When Left Behind and

Mark your car charger as lost

- 1. Open the Find My app.
- Tap the Items tab.
 Select your car charger in the Items list and scroll down.
- 4 Ensure Notify When I eft Rehind is turned on
- 5. Under Lost Mode, tap Enable, then tap Continue.
- 6. Enter your phone number/email address so that the finder of your car charger can contact you, then tap

Changing the Name of Your Car Charger

- 1. Open the Find My app and tap the Items tab.
- Select your car charger in the *Items* list.
 Scroll down and tap *Rename Item*.
- Select a name from the list or select *Custom Name*.
 For Custom Name, input a name and select an emoji.
- 6. Tap Done.

Removing Your Car Charger

Removing your car charger from your Apple ID will allow it to be activated and used by another person 1. Ensure that your car charger is connected to your

- 2. Open the Find My app.
- 3. In the *Items* tab, tap the car charger.
 4. Tap *Remove Item*, tap *Remove* and confirm to remove. * If not connected when removing your car charger from your Apple ID, it will no longer be discoverable and you will need to perform a factory reset before creating a new connection (see "Getting Started > Factory reset" above).

Unwanted Tracking Notification

If your car charger is separated from your iPhone and is detected moving with another person with an Apple device over time, that person will receive a tracking alert

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -- Consult the dealer or an experienced radio/TV technician for help.

RF exposure for WPT

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body:Use only the supplied antenna.

RF exposure for BT

The device has been evaluated to meet general RF exposure requirement. The device can be

used in portable exposure condition without restriction
