Dear Anthony Yao,

You are listed as the Technical Contact for the above referenced TCB application. I have reviewed this application and find that the following items need to be addressed before the review can be completed:

1. Please provide a photograph of the back sided of the WLAN board.

Ans: Added the back sided of the WLAN board on last page.

2. The schematics have lots of information but the schematic of the Bluetooth and WLAN boards seem to be missing. Please supply the Bluetooth & WLAN schematics for this device.

Ans: Sorry, it should be lost. Please have the schematics for WLAN & BT again.

3. The average time of occupancy for the reduced hop set (32 channels for Bluetooth 2.0) have not been demonstrated. Please demonstrate compliance with this requirement.

Ans: Please have the BT DoC Letter.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the

requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
