## 1. Announcements

- ① Only use the power adapter, power cord and other accessories provided by the original factory.
- ② The gaps and openings on the machine are used for ventilation and heat dissipation. Do not block or cover these gaps and openings.
- ③ Do not use or store the machine in dusty, humid and high temperature environment.
- ④ When the machine breaks down, do not disassemble and repair by yourself. Contact the original factory or dealer to solve the problem.
- ⑤ Avoid stepping on the power line or power adapter, so as to avoid the danger of leakage caused by line damage. If the wiring of the power adapter is damaged, do not continue to use it, otherwise danger may occur.
- ⑥ Please unplug the power cord when it is not suitable for this machine in thunderstorm or for a long time.
- ⑦ When using, please do not put the machine on the edge of the table or the place easily

accessible to children, so as to avoid falling damage or injury to children.

⑧ During transportation or use, try not to touch the display screen, do not squeeze the display screen, do not use sharp tools or hard objects to damage the display screen, so as to avoid damage to the display screen.

⑨ Please clean the Android all in one machine with a dry soft cloth or a soft cloth slightly dipped in a soft detergent. Do not use any kind of solvent, such as alcohol or gasoline, otherwise the surface treatment layer may be damaged.

## 2.1 Packing Details.

Each unit of All in one has the following items: All in one device\*1, and user manual\*1. .All items are packed in box.

## 3.1 Features Overview

- Product Name: 24 inch Flat Screen-P
- Model No.: ECHKIN24-3399-C
- CPU: RK 3399 Quad-core 1.8GHz. With ANDROID 9.0 operation system
- 24" touch panel LCD display, 1920\*1080 resolution.
- 32 GB Nand Flash Memory, support 64GB external TF card.
- ANDROID 9.0 OS.
- Bluetooth 5.0
- Built-in Wi-Fi. 802.11a/b/g/n/ac. (2.4Ghz+5.0Ghz, 2x2MIMO)
- Support built-in microphone record function.
- Support G-sensor screen rotation function.
- Support Multi touch 10 points
- Supports multiple languages.
- Support External 3G dongle

## 3.2 Technical Specifications

➤ Developer options

USB debugging (check it; the connection prompt will appear in the upper left corner when connecting the data line).

➤ About tablets

You can view the equipment model, system version number and status information.

## **8. Common problems and Solutions**

1. Cannot connect to router after WiFi is turned on

Solution: the WiFi password may be entered incorrectly. Please enter the password correctly.

2. No response from USB connected computer

Solution: first check whether the connecting cable between the machine and the computer is connected, then click the top left corner of the machine screen, drag down and click "USB connection" to check whether it is connected.

3. The machine crashes and jammed after abnormal operation

Solution: long press the power button for 10 seconds to shut down, and then restart to restore normal.

## 9. FCC compliance statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### [ISED compliance statement](#)

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

### ISED 5G Wi-Fi [statement](#)

The user manual for LE-LAN devices shall contain instructions related to the restrictions mentioned in the above sections, namely that:

- i. the device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;
- i. le dispositif utilisé dans la bande 5150-5250 MHz est réservé à une utilisation en intérieur afin de réduire le risque de brouillage préjudiciable aux systèmes mobiles par satellite dans le même canal;

#### [Radiation Exposure statement](#)

This equipment complies with FCC/IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body.

Cet équipement est conforme aux limites d'exposition aux radiations FCC/IC CNR-102 établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.
