Request for Permissive Change

We, **AXIS Communications AB**, hereby request a permissive change pursuant to CFR § 2.1043 as follows.

Original application granted on **02/16/2024** for FCC ID: **PNB-RC76B**

Reason:

Our end-device is a portable device, but the existing FCC Grant for PNB-RC76B only allows for fixed and mobile applications. So, we would need to add portable applications to the existing FCC Grant.

No changes have been made to the RF module's hardware or firmware.

Testing of RF radiation exposure has been made for the end-device to demonstrate that the device complies with the limits for portable devices in CFR § 2.1093.

Test report is attached to this application.
