All contents and services obtained through your device shall belong to a third party under the protection of copyright, patent, trademark or other intellectual properties, and shall be used for your personal non-commercial purposes only. You are not allowed to use any content or service in any way without the authorization of the content or service provider.

In no case shall we e held liable for any direct, indirect or accidental loss or damage caused by your accessing any content, service, information or third-party software through your device.

Third-party services are subject to change, deletion or may stop without prior notice. We shall not imply or assure that all services and contents will be kept available at all time.

We shall not be responsible for providing any related customer service for any third-party service or content. Please refer your questions and service requests directly to the relevant content or service provider.

Please remember to backup the data when using your device. We shall not be held liable for any personal data loss or damage caused by software or hardware misoperation, product repair, battery replacement or any other unexpected situations, or for any other indirect loss arising thereof. Any misunderstandings in relation to this Manual shall be beyond our control. Consequently, we shall not bear any liability for any accidental loss caused by the use of this Manual or got any third-party claim caused by the use of your device.

### • 3. Operations:

#### 3.1 Turn on/Shut down the Machine

To start your device, press and hold the Power button until the screen lights up. To shut down your device, press and hold the Power button for seconds and press 'Power Off'.

### 3.2 Battery status/Charging your battery

The current battery status will be always displayed in the top right of the screen in the system information bar. The battery icon will change accordingly to the battery status.

When connected to the charger, the battery charging icon will display at the top right corner of screen. Note the lighting symbol inside the battery icon.

### 3.3 Install/Administer apps

You can install your own apps by opening the apps shop after connected to the network. Note that not all applications could function properly for your tablet, because some are made especially for small screen devices such as phones. After entering 'Settings', there will display an overview of the installed apps. Select an app to view its detailed information. In the detailed information you also have the options 'Force Stop', 'Uninstall', 'Clear data' and 'Move to SD card'.

#### FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1) Reorient or relocate the receiving antenna.

2) Increase the separation between the equipment and receiver

3) Connect the equipment into an outlet on a circuit different from

that to which the receiver is connected. 4) Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly

approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
