3-BUTTON REMOTE CONTROLS MODELS 890MAX, 893MAX, AND 895MAX

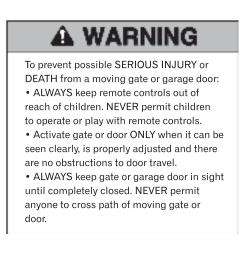

Can be used as a replacement remote control for 80 Series, 970 Series, and 370 Series LiftMaster remote controls.

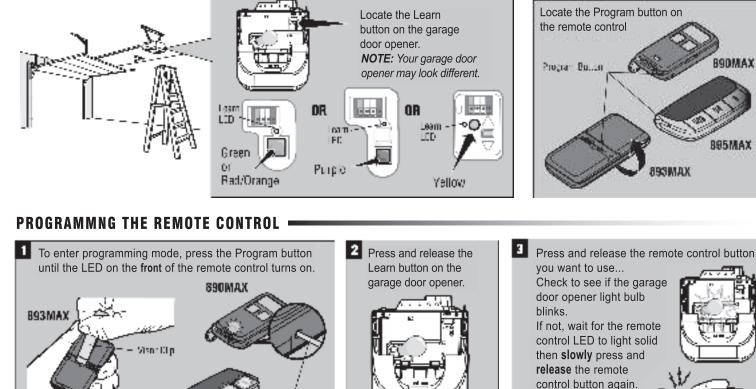

Compatible with 315 MHz or 390 MHz garage door openers manufactured after January 1, 1993. Make sure the garage door opener has a working light bulb because it is a programming indicator.

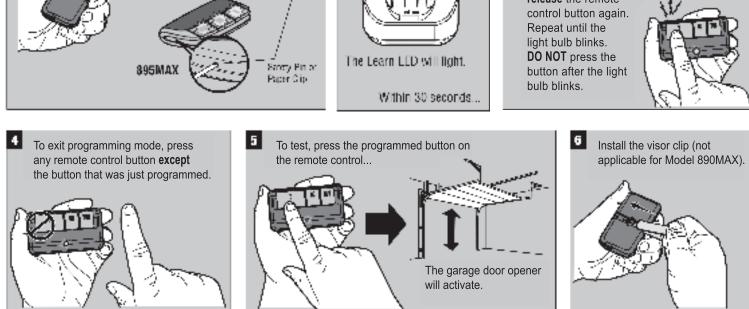

For use with gate operators, commercial door operators, or other products that are 315 MHz or 390 MHz and have a Learn button. Refer to your product manual for the location of the Learn button.

PREPARE

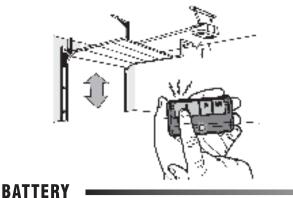

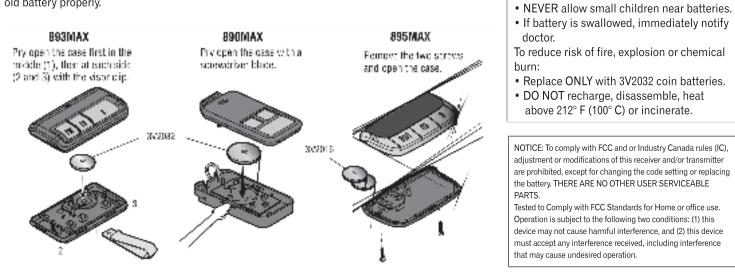

HOW TO USE THE REMOTE CONTROL -

Press and hold the button down until the door or gate starts to move. The remote control will operate from up to 3 car lengths away on typical installations. Installations and conditions vary, contact an installing dealer for more information.

The LED(s) on your remote control will stop flashing when the battery is low and needs to be replaced. To replace battery, open the case as shown. Insert battery positive side up (+). Replace the battery with only 3V2032 or 3V2016 coin cell batteries (depending on the model). Dispose of old battery properly.

REPLACEMENT PARTS -

3V2032 Lithium Battery (Models 893MAX & 890MAX)10

FCC Statement:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna.

- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

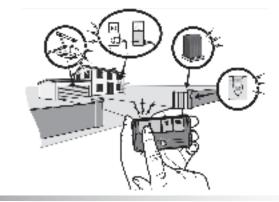

RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Additional buttons on the remote control can be programmed to operate up to 3 devices such as additional garage door openers, light controls, gate operators or access control systems.
