

Viper 7116V 1-Way Remote User Guide

Thank you for purchasing this Viper Remote Transmitter. This guide provides a general description of operations for Viper Remote Start Systems.

Standard Configuration

System State	Press & Release	Press & Hold (3 sec.)
Engine Off	Start Engine	Car Finder
Engine On	Unlock Doors	Stop Engine

Start Engine

When the engine is OFF, **press** and release the remote control button to start the engine.

Unlock Doors

When the engine is ON, **press** and release the remote control button. The doors unlock, the parking lights flash, the horn sounds (if connected) as confirmation.

Stop Engine

When the engine is ON, **press** and **hold** the remote control button for three seconds. The engine stops running and the parking lights turn off.

Car Finder

When the engine is OFF, **press** and **hold** the remote control button for three seconds. The parking lights flash slowly several times allowing you to locate your vehicle.

Remote Pairing

The following Learn Routine can be used to program this replacement transmitter (remote control) to your system.

To enter the Learn Routine:

1. Turn the key to the **ON** position.
2. Within 5 seconds, press and release the program (control, valet) button the number of times that corresponds to the selected channel listed below. After you select the channel, press the program button again and **HOLD** it. The LED on the control module flashes the same number of times as the corresponding selected channel. * Do NOT release the program button.
3. While still holding the program button, press the button on the transmitter (remote control). * Once the code is learned you can release the program button and remove the key.

* The horn honks as confirmation, if connected.

Channel #	Function
1	Auto-learn standard configuration
2	Delete all transmitters/remote controls

Government Regulations

This device complies with Part 15 of FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesirable operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television, which can be determined by turning the equipment OFF and ON, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

Canada Statements

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Les changements ou modifications non approuvés expressément par la partie responsable de la conformité pourrait annuler l'autorité de l'utilisateur à faire fonctionner l'équipement
