

USER MANUAL

USER MANUAL

I. Radio Use:

Set the mode selector to “RADIO” to enter radio mode. Then, rotate the band knob to select FM/AM/SW bands. Finally, turn the volume knob to adjust to a suitable volume.

To listen to the AM band, adjust the direction of the device. For the FM band, extend the telescopic antenna and adjust it to an appropriate position for optimal reception.

At this point, turn the station knob to check the position of the tuning indicator in the station display window and select the station you wish to listen to.

II. MP3 Mode Playback Operations:

1. Set the mode selector to MP3 mode. The MP3 mode includes Bluetooth/USB flash drive/TF card modes. Long press the pause button to switch modes; each mode switch will have a voice prompt. (Note: TF card/USB flash drive modes require the device to be inserted before use.)

2. Bluetooth name: MG003, which can be searched and connected on the device.

3. The TF card and USB card reader supports MP3/WMA/WAV format files.

4. The radio will automatically read the first inserted audio device (USB flash drive/TF card) in MP3 mode.

5. Short press the single song repeat button to repeat the same song.

III. Notes:

1. This product is equipped with a lithium battery. If the radio signal and music playback are lagging, please recharge promptly.

2. It is recommended to use a DC/5V power supply for charging, with a charging time of approximately 5 hours.

3. If the product will not be used for an extended period, please remove the dry batteries from the battery compartment to prevent battery leakage damage. (The product can be powered by one set of R20 dry batteries.)

4. After use, please switch the mode selector to “OFF” to turn off the device.

IV. Technical Parameters

Frequency Range	FM: 88-108MHZ	Sensitivity	FM: 10dB
	AM: 530-1720KHZ		AM: 85dB
	SW: 7-16.0MHZ		SW: 25dB
Lithium Battery	3.7V/1200mAh	Product Weight	About 641.2g
Charging Input	DC 5V	Product Size	219*195.3*76.5mm

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
