RE: Maximum Power Reduction for LTE and LTE Release Checklist Attestation

FCC ID: APV-4350LB

Models: LMU4350LB, LMU4351LB

To whom it may concern:

We attest the following regarding FCC ID:

1. Carrier Aggregation is not supported.
2. LTE transmitter and antenna(s) are used in mobile configurations only in designed for industrial vehicular use. Therefore, this device does not support MPR features.
3. This device is exempt from the requirements detailed in Sections C.1) through C.9) of KDB 941225 LTE Release 10 Checklist as this device is used in mobile configurations only.

Should you have any questions or comments concerning the above, please contact the undersigned.

Yours Sincerely,

Full Name:	Imad Rizk
Position / Title:	Director of Certification
