GETTING STARTED

WATERPROOF WARNING:
AGM M8 FLIP is IP68/IP69K/MIL-STD-810H certified. Battery doors and USB port cover must be completely closed to prevent water damage.

INSTALLING A NANO SIM CARD OR MICRO SD CARD

1. Place your device on a flat, clean surface with the display facing downwards.
2. Open the battery door with a screwdriver.
3. Take out the battery from top.
4. Align Nano SIM according to the graphic note and use your fingertip to place the Nano SIM card in the SIM 1/ SIM 2 tray with gold pins facing downwards.
5. In case A MEMORY CARD need to install, please Open the micro SD card tray by slide the metal cover in the direction of the 'Open' arrow (which you' ll find stamped on the metal tray) and lift the unhinged edge to open. Install the microSD card (contacts face down), finally close the metal cover and slide in the direction of the 'Lock' arrow, to secure in the closed position.
6. Reinsert the battery and outer battery door.

NOTE:

DUAL SIM DEVICE: Supports 2x Nano SIM card and 1x microSD card. When 2 SIM cards are in use, the primary SIM card supports 4G, 3G and 2G connections, the secondary SIM card supports 2G connections only.

CHARGING THE BATTERY

- Before using your device for the first time you will need to charge the battery.
1. Remove the insulation tape (if have) from the battery contacts.
 2. Connect the USB power cable to the charging power adapter. AGM M8 is an Eco-friendly mobile device, which does not come along with a power adapter in the box in editions of some areas. AGM M8 supports CE/CB/FCC/CCC/EAC or equivalent certified chargers. The recommended charger output is 5V/1A or 5V/2A. Uncertified equipment may cause damage to the device or cause batteries to explode.
 3. Open the USB Type-C port cover and connect the USB power cable to the port.Be careful not to use excessive force when plugging the cable. Any damage caused by attempting to insert the connector incorrectly is not covered by the warranty.
 4. Plug the charger into an AC mains socket.
 5. When charging is complete, remove the cable from the device, then unplug the power adapter from the mains socket. Close the USB port cover on the device.
 6. AGM M8 supports cradle charger, which need purchase the charger separately.

COMMON FUNCTIONS

Set M1/M2/M3 Key

1. When the user clicks the M1/M2/M3 button for the first time, a warning prompt will pop up. Click OK to enter the editing interface.For example, select M1 to enter the phone number and save it. When the user clicks the M1 button again, they can directly dial their saved phone number.
2. When the user wants to modify the phone number saved by the M1/M2/M3 button, click on the main menu>Settings>Speed dial, and select the M1/M2/M3 button to edit it again.
