## Authorization for Modification

We, Visonic Ltd. confirm our request to authorize apply for a CI2PC of  
FCC ID: WP3MC309PG2 of Magnetic Contact, model MC-302E P9M0  
(date of the grant 12/11/2018).

We affirm no changes have been made to the device. The new device is similar to the certified product.

The differences are: moved LED place in the PCB, reduce to two hardwired inputs instead of three, Flash added, new plastic enclosure design, addition of some new supplementary SW features.

This authorization includes grant to access and reference to all original exhibits of our identification as necessary for the modification process.

Regards,

Zuri Rubin,

Certification Manager.
