Tel: (408) 463 0885
Fax: (408) 463 0888

Dear Mr. Kuo,

We, Advanced Compliance Laboratory, as EMC testing lab and agent, would like to represent the applicant, Somfy Systems, Inc. to apply for your approval on product authorization under **Permissive Change Class II**. The investigation for the EMC performance of the EUT, Lower Power Transmitter, Model No. **TELISSOL** (Original FCC ID: **DWNTTELISSOL**) was performed in Feb. 2004 on behalf of the applicant. It was found that EUT complies with the requirements of FCC Part 15. The systems were configured as the typical condition during the test. Enclosed please find the test reports with related information.

The changes in this current model, comparing to its original model, are given as the following:

- PCB re-layout

The measurement facility used to collect the test data is located at Somerset, New Jersey. OATS was listed by FCC (Refer to: 31040/SIT 1300F2) since 1992 and also recognized under NVLAP by NIST (Lab code 200101-0) since 1997.

Should you need more information, please contact me at (908) 927-9288 x106. Your attention is highly appreciated.

Best regards,

Wei Li
Manager
Advanced Compliance Laboratory, Inc.
