1 GETTING STARTED

- REGISTER YOUR PRODUCT
- DOWNLOAD THE USER GUIDE
- SIGN UP FOR THE NEWSLETTER

2 PLUG IN AND POWER ON

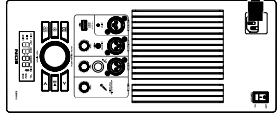

3 ION SOUND CONTROL™ APP

Connect to the ION SOUND CONTROL™ App for a more dynamic experience:

- Connect phone to speaker via Bluetooth® (Step 4)
- Download App from Apple App Store or Google Play Store
- Open the App on your device

2 CONECTE PARA Y ENCIÉNDALO BRANCHEZ POUR PUIS METTEZ-LE SOUS TENSION

Voltage de entrada: 100-120 VAC, 60 Hz, 320 W Tension d'entrée : 100-120 VAC, 60 Hz, 320 W

3 ION SOUND CONTROL™ APP

Conectése a la aplicación ION SOUND CONTROL™ para una experiencia más dinámica:

- Connectez-vous à l'application ION SOUND CONTROL™ pour une expérience plus dynamique :
- Assurez-vous que le téléphone intelligent est connecté à l'enceinte par connexion Bluetooth (Étape 4)
 - Téléchargez l'application à partir de l'App Store d'Apple ou de Google Play
 - Ouvrez l'application sur votre appareil

4 CREATE YOUR SOUND EXPERIENCE

INSTALLING BATTERIES INTO WIRELESS MIC

(see images below)

- Remove battery compartment cover by turning it clockwise.
- Install two fresh AA batteries (not included) in the orientation indicated in the compartment.
- Press the reset switch inside the compartment for 3 seconds to reset the mic's connection to the speaker.
- Reattach battery cover by turning it counterclockwise.

BLUETOOTH

- Power on speaker for Bluetooth mode, otherwise press SOURCE to select Bluetooth mode.
- Choose "Total PA Freedom" in your Bluetooth settings menu.
- Press Play in music player App of choice on device.
- Make sure device volume is turned up.
- Press PLAY/PAUSE button to start or stop audio.
- Press < / > buttons to navigate tracks.

USB MODE

USB PLAYBACK

- Insert a USB drive (not included) with MP3 files on it (16 GB max).
 - Press PLAY/PAUSE button to begin playback. Tracks will play in the order that they appear on the device.
 - Press > button to skip to the next track. Press < button to go to the beginning of the track. Press again to skip to the previous track.
 - Press REPEAT button to choose playback mode (see User Guide).
- CHARGING YOUR DEVICE**
- Plug your device's USB cable into the USB-A port to charge it.

4 CREE SU EXPERIENCIA DE SONIDO CREEZ VOTRE EXPERIENCE SONORE INSTALACIÓN DE PILAS EN EL MICROFONO INALÁMBRICO

INSTALLATION DES PILES DANS UN MICROPHONE SANS FIL

(voir images ci-dessous)

- Retirez le couvercle du compartiment à piles en le tournant dans le sens des aiguilles d'une montre.
- Insérez deux piles AA neuves (non incluses) dans l'orientation indiquée dans le compartiment.
- Appuyez sur le bouton de réinitialisation à l'intérieur du compartiment pendant 3 secondes pour réinitialiser la connexion du microphone à l'altavoz.
- Remettez le couvercle de la batterie en le tournant dans le sens inverse des aiguilles d'une montre.

BLUETOOTH

- Encienda el altavoz para modo Bluetooth; de lo contrario, presione SOURCE para seleccionar el modo Bluetooth.
 - Seleccione "Total PA Freedom" en su menú de ajustes Bluetooth de votre appareil.
 - Indice la reproducción en su aplicación de música.
 - Assurez-vous de subir le volume de su appareil.
 - Pulse el botón de reproducción para comenzar la reproducción de audio.
 - Pulse los botones < / > para navegar entre pistas.
- MODO USB**
- REPRODUCCIÓN USB**
- Inserte una unidad USB (no incluida) que contenga archivos MP3 en ella (16 GB max).
 - Pulse el botón de reproducción para comenzar la reproducción en el orden en el que aparecen en el dispositivo.
 - Indice la reproducción en su aplicación de música.
 - Assurez-vous de monter le volume de l'appareil.
 - Pulse le bouton de lecture pour commencer la lecture d'audio.
 - Pulse les touches < / > pour naviguer entre pistes.

CARGAR TU DISPOSITIVO

- Conecta el cable USB de tu dispositivo al puerto USB-A para cargarlo.
- Branchez le câble USB de votre appareil sur le port USB-A pour le charger.

WIRED MIC IN

- Plug microphone (not included) into MIC 2 input on the back panel.
- Use the MIC 2 volume knob to adjust volume.

WIRELESS MIC IN

- Power on the wireless microphone.
- Use the WIRELESS MICROPHONE volume knob or + / - controls on the microphone to adjust volume.

AUX IN

- Plug any sound source into the AUX input on the back panel with a 1/8" cable (not included).
- Press the SOURCE button to select AUX mode.
- Make sure the SOURCE volume knob is turned up.

5 CUSTOMIZE YOUR SOUND EXPERIENCE

Important: Use only the stand provided with the product. To ensure stability if mounting the speaker on the stand, fully tighten the speaker mounting knob to secure it to the pole.

VOLUME

- Rotate to adjust overall Main Volume
- Push to select ECHO to adjust echo effect on Mics
- Push to select LOW to adjust EQ settings
- Push to select HIGH to adjust EQ settings

LIGHT MODES

- Press LIGHTS button or use App to switch between light modes, or to turn the lights off.

WIRELESS STEREO-LINK™

- See User Guide or App for link instructions to connect to another Total PA™ Freedom speaker.

- ENTRADA DE MICROFONO**
 - Enchufe el micrófono (no incluido) en la entrada MIC 2 del panel posterior.
 - Utilice la perilla de volumen MIC 2 para regular el volumen.
- ENTRADA DE MICROFONO INALÁMBRICO**
 - Encienda el micrófono inalámbrico.
 - Utilice la perilla de volumen del micrófono o los comandos + / - del micrófono para regular el volumen.

- ENTRADA AUX IN**
 - Enchufe una fuente de audio cualquier (no incluida) en la entrada MIC 2 del panel posterior mediante un cable 1/8 pulg. (no incluido).
 - Apriete la tecla SOURCE para seleccionar el modo auxiliar.
 - Assegure-vos que le bouton de volume SOURCE est augmenté.

- ENTRÉE MICROPHONE FILAIRE**
 - Branchez le microphone (non fourni) dans l'entrée MIC 2 du panneau arrière.
 - Utilisez le bouton de volume MIC 2 pour régler le volume.
- ENTRÉE MICROPHONE SANS FIL**
 - Allumez le microphone sans fil.
 - Utilisez le bouton de volume du microphone ou les commandes + / - du microphone pour régler le volume.

5 PERSONALICE SU EXPERIENCIA DE SONIDO PERSONNALISEZ VOTRE EXPÉRIENCE

Important: Use solo el soporte provisto con el producto. Para asegurar la estabilidad si monta el altavoz sobre el soporte, apriete totalmente la perilla de montaje del altavoz a fin de asegurarlo a la columna.

VOLUMEN

- Girela para ajustar el Volumen Principal general.
- Apriete para seleccionar ECHO para ajustar el efecto de eco en micrófonos.
- Púsele para seleccionar LOW a fin de modificar los ajustes de ecualizador.
- Apriete para seleccionar HIGH a fin de modificar los ajustes de ecualizador.

MODOS DE ILUMINACIÓN

- Pulse el botón de ILUMINACIÓN o utilice la aplicación para cambiar entre modos de iluminación, o para apagar la iluminación.

STEREO-LINK™ INALÁMBRICO

- Consulte en la Guía del usuario o en la aplicación para obtener instrucciones afin de conectarle con otro Total PA™ Freedom.

Important Safety Instructions (English)

v1.65 (P/AT/28)

- Read and keep these instructions. Heed all warnings and follow all instructions.
- Warning** (if applicable): Please refer to any important information (e.g. electrical, safety) printed on the exterior bottom enclosure or rear panel before installing or operating the product.
- Clean only with dry cloth.
- Water and Moisture (if applicable): Do not use this apparatus near water. The apparatus shall not be placed on a wet or damp surface. Do not use this apparatus in areas where it may be exposed to rain or water. Electrical equipment should NEVER be kept or stored in damp environments.
- If applicable: Do not block any ventilation openings, "boxed-in" space such as a bookcase or similar unit, and maintain good ventilation conditions. The ventilation should not be impeded by covering the openings.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat. Do not place exposed flame sources such as lit/candle candles on the apparatus.
- If applicable: This product should be connected to a power supply only of the type described in these operating instructions, or as marked on the unit.
- Power Cord: Do not pull or tug on the power cord. When pulling or not using the appliance, secure the power cord lock, with a cable lock. Before using it again, make sure the power cord has not been damaged. If the power cord has been damaged at all, bring the unit and cord to a qualified service technician for repair or replacement as specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time.

- Only use accessories/attachments specified by the manufacturer.
- If applicable: Use only the correct stand, tripod, bracket or table specified by the manufacturer. Do not use other stands or tables. Use caution when moving the equipment to avoid injury from tip-over.
- Internal/External Voltage Selections (if applicable): Internal or external voltage selector switches, if any, should only be reset and re-equipped with a proper plug for alternative voltage by a qualified service technician. Do not attempt to alter the yourself.
- Always use the correct power supply. The power supply is internally regulated. Plug only with the same or equivalent type. Batteries (a battery pack or an installed battery) shall not be exposed to excessive heat such as sunlamps, fire, etc.
- If applicable: Do not defeat the safety purpose of the polarized or grounding-type plug.
- Protective earthing terminal (if applicable): The apparatus should be connected to a mains socket equipped with a protective earthing connection.

- Denmark (Danmark): Apparater sidestør skel tilføjelses en sikkerkontakt med jord, som giver beskyttelse mod elektrisk chok.
- Finland (Suomi): Laiton on liitettävä suojajohdella varustettuun pistorasiin.
- Norway (Norge): Apparatet må tilknyttes jord sikkerkontakt.
- Sweden (Sverige): Apparatet skall anslutas till jordstift.

- For Class II apparatus only:** This symbol means the equipment is a Class II or double-insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth. When servicing use only electrical replacement parts installed by an instructed person or with the use of ready-made leads or cords.

- Warning** (if applicable): Please read and understand the label on the plug plus is connected to the mains. When switching the mains supply on, be sure to disconnect it after pulling the mains plug out from the mains.

- If applicable: When the warning symbol is on an appliance coupon is used as the disconnect device, the disconnect device shall remain readily operable.

- Warning** (if applicable): To prevent possible hearing damage, do not listen at high volume levels for long periods.

- This apparatus is for professional use only. Intended operational climate: moderate.

- United Kingdom (UK): This symbol indicates that the equipment is a Class II or double-insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth. When servicing use only electrical replacement parts installed by an instructed person or with the use of ready-made leads or cords.
- France (France): Ce symbole indique que l'appareil est une installation de sécurité.
- Germany (Deutschland): Dieses Symbol zeigt, dass das Gerät eine Klasse II oder doppelisoliertes elektrisches Gerät ist. Es ist so konstruiert, dass es keine Schutzverbindung mit der Erde erfordert. Bei der Wartung sind nur Ersatzteile zu verwenden, die von einer qualifizierten Person oder mit Hilfe von vorgefertigten Leitungen oder Kabeln ersetzt werden können.
- Italy (Italia): Questo simbolo indica che l'apparelio è un'installazione di sicurezza.
- Spain (España): Este símbolo indica que el aparato es una instalación de seguridad.
- Portugal (Portugal): Este símbolo indica que o aparelho é uma instalação de segurança.
- Poland (Polska): Ten symbol oznacza, że urządzenie jest instalacją bezpieczeństwa.
- Czech Republic (Česko): Tento symbol znamená, že přístroj je instalací bezpečnosti.
- Slovak Republic (Slovensko): Tento symbol znamená, že zariadenie je bezpečnostnou inštaláciou.
- Hungary (Magyarország): Ez a jel azt jelenti, hogy az eszköz egy biztonsági berendezés.
- Romania (România): Acest simbol indică faptul că aparatul este o instalație de siguranță.
- Bulgaria (България): Този символ означава, че уредбата е безопасна инсталация.
- Greece (Ελλάδα): Αυτό το σύμβολο σημαίνει ότι η συσκευή είναι εγκατάσταση ασφαλείας.
- Turkey (Türkiye): Bu sembol, cihazın bir güvenlik kurulumu olduğunu gösterir.
- Ukraine (Україна): Цей символ означає, що пристрій є установкою безпеки.
- Belarus (Беларусь): Гэты сімвал азначае, што прылад з'яўляецца ўстаноўкай бяспекі.
- Latvia (Latvija): Šis simbols norāda, ka ierīce ir drošības iestāde.
- Lithuania (Lietuva): Šis simbolis rodo, kad įrenginys yra saugumo įrenginys.
- Estonia (Eesti): See sümbol näitab, et seade on turvalisus seade.
- Finland (Suomi): Tämä symboli tarkoittaa, että laite on turvakiinnitys.
- Sweden (Sverige): Detta symbol betyder att utrustningen är en säkerhetsanordning.
- Norway (Norge): Dette symbolet betyr at utrustningen er en sikkerhetsanordning.
- Iceland (Ísland): Þetta skýringarmynd sýnir að tækið er öryggisútgáfa.
- Ireland (Éire): É seo an t-áireamh a chiallaíonn go bhfuil an t-ábairt seo mar áireamh.
- Portugal (Portugal): Este símbolo indica que o aparelho é uma instalação de segurança.
- Poland (Polska): Ten symbol oznacza, że urządzenie jest instalacją bezpieczeństwa.

Safety Notices

- CAUTION: TO PREVENT THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE ANY COVER OR DISASSEMBLE PARTS. INSTEAD, REFER SERVICING TO QUALIFIED SERVICE PERSONNEL ONLY.**

- DANGEROUS VOLTAGE:** The lightning flash with arrowhead symbol within the equilateral triangle is intended to alert the user to the presence of an un-insulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

- INSTRUCTIONS:** The exclamation point within the equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying this appliance.

- POWERED BY ULTIMATE CHARGING:** This symbol indicates that the product is powered by the ULTIMATE CHARGING BE FULLY RECHARGED TO PREVENT FLAME DISAPPEARANCE.

- NOTICE CONCERNING LASER PRODUCTS: DANGER, INVISIBLE LASER RADIATION, WHEN OPEN AND INTERLOCK FAILED OR DELETED-ADHD DIRECT EXPOSURE TO BEAM USE OF CONTROLS OR ADJUSTMENTS OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.**

- NOTICE CONCERNING FCC REGULATIONS:** You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

- This equipment generates noise and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (a) reorient or relocate the receiving antenna; (b) increase the separation between the equipment and the receiver; (c) use a different power outlet, or a different wall outlet to which the equipment is plugged; (d) have the equipment inspected by a qualified technician for possible shielding. Using a choke or ferrite where appropriate, or if consult the dealer or an experienced radio/television technician for help. This equipment should be installed and operated with a minimum distance of 20 cm between the equipment and your body.

- For Canadian notes:** This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development (ISED) Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must accept any interference, including that from licensed radio stations. The user must be advised that the use of this equipment without the proper antenna may result in the transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by ISED. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (EIRP) is not more than that necessary for successful communication. The user must be advised that the use of this equipment without the proper antenna may result in the transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by ISED to operate with the antenna type listed below with the maximum permissible gain.

This equipment should be installed and operated with a minimum distance of 20 cm between the equipment and your body.

- For Canadian notes:** This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development (ISED) Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must accept any interference, including that from licensed radio stations. The user must be advised that the use of this equipment without the proper antenna may result in the transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by ISED. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (EIRP) is not more than that necessary for successful communication. The user must be advised that the use of this equipment without the proper antenna may result in the transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by ISED to operate with the antenna type listed below with the maximum permissible gain.

- This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (a) reorient or relocate the receiving antenna; (b) increase the separation between the equipment and the receiver; (c) use a different power outlet, or a different wall outlet to which the equipment is plugged; (d) have the equipment inspected by a qualified technician for possible shielding. Using a choke or ferrite where appropriate, or if consult the dealer or an experienced radio/television technician for help. This equipment should be installed and operated with a minimum distance of 20 cm between the equipment and your body.
