- 8. Lamp Arm

Package Contents

- 1 x TaoTronics LED Desk Lamp (Model: TT-DL057)
- 1 x Power Adapter
- 1 x User Guide

Specifications

Model	TT-DL057
Input	100-240V AC 50 / 60Hz 12V / 1.2A
LED Power	14W
Wireless Charging Power	5W Max
CRI	> 80

Color Temperature	2700-4500K
-------------------	------------

How to Use

Connect the lamp to a power source with the included power adapter, it is in standby mode now.

Power On / Off

Tap the Power Button to turn on / off the lamp.

Color Temperature Adjustment

Tap the Color Temperature Button to go through the 4 levels of color temperature.

Brightness Setting

Tap the Brightness Button to adjust the brightness between 4 levels.

Wireless Charging

Place your phone with wireless charging functionality onto the charging pad, charging will start automatically. The wireless charging indicator will stay solid blue when charging and turn off once your phone is fully charged.

Note:

- If charging does not occur, adjust the phone so its receiver can be detected.
- Please note that different model phones have their receivers in different positions. Please align the charging coil of your phone with that of the charging pad to achieve the fast charging.

Structural Parts

Caution

- Use the supplied AC power adapter only.
- Please do not dismantle the product by yourself, always ask professional electricians or authorized technicians for repair.
- If you smell bad odor or anything unusual, please turn off the unit immediately.

FCC STATEMENT:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
