SECTION G - Charging Head Adjustment
Ajustement du montage de recharge / Ajuste del soporte

SECTION A

SECTION B

Adhesive Dash Mount

1. Thoroughly clean desired mounting surface using cleaning wipe*.
2. Firmly bend Flex Tabs before attaching to a curved surface.
3. Peel off protective backing and attach to desired mounting surface.
4. For best adhesion, firmly hold the mount against the dash for 30-60 seconds.

*Supplied cleaning wipe may cause discoloration of certain plastics, vinyls and painted surfaces. It is recommended to test in an inconspicuous area first.

SECTION C

Monitor Mount

Use the included tool to remove and reverse the adhesive mounting base, so that the adhesive side faces the same direction as the phone mount and the monitor screen (A).

Follow the steps in Section C to attach the adhesive base to the rear of the monitor (B).

Montage sur moniteur

Utiliser l'outil inclus pour retirer et inverser la base de montage adhésive, afin que l'adhésif fasse face en même direction que le montage pour téléphone et l'écran du moniteur (A).

Suivre les étapes dans la section C pour fixer la base adhésive sur l'arrière du moniteur (B).

Soporte para monitor

Utilice la herramienta incluida para remover y revertir la base de soporte adhesivo de modo que el lado adhesivo mire en la misma dirección que el soporte del teléfono y la pantalla del monitor (A).

Siga los pasos de la Sección C para fijar la base adhesiva a la parte trasera del monitor (B).

The diagram illustrates the assembly and adjustment of the MagicMount Charge Elite. It includes sections for Vent Mount, Integrated Cable Management System, Qi2 Wireless Charging Head*, and Mount Adjustment. The Mount Adjustment section shows the dual ball-joint design allowing for tilt and rotation, and the sliding of the charge head along the mounting arm. The Car Adapter section shows the connection to a vehicle's 12V power source. The entire assembly is designed to be compact and versatile for various mounting scenarios.
