Overview

This application is for a Class II permissive change of FreeWave Technologies W0900-01 radio module, which operates at 902 - 928 MHz to add channels with 2.5 MHz, 5 MHz and 10 MHz bandwidths. These changes are software changes which do not require any hardware changes. New test data has been submitted in support of these changes.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
