

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A photograph showing a black over-ear headset with two large, padded ear cups and a flexible boom microphone. To the right of the headset are two coiled black cables: one with a USB-A connector and the other with a 3.5mm audio jack. A metric ruler is placed vertically to the left of the headset and horizontally below it for scale. The background is a light blue surface.
EUT View 2	 A photograph of the same black over-ear headset from a slightly different perspective, showing the side profile of the ear cups and the headband. The two coiled cables are not visible in this view. A metric ruler is placed vertically to the left and horizontally below the headset for scale. The background is a light blue surface.

EUT View 3	 A top-down photograph of a pair of black over-ear headphones. The headphones are positioned centrally, with the headband at the top and the ear cups facing downwards. A black ruler with white markings is placed horizontally below the headphones, showing measurements in millimeters and centimeters. The background is a light blue surface.
EUT View 4	 A side-view photograph of the same pair of black over-ear headphones. The left ear cup is in the foreground, showing its side profile with a small circular port labeled 'AUX'. The right ear cup is slightly behind it. A black ruler with white markings is placed horizontally below the headphones. The background is a light blue surface.

EUT View 5	
EUT View 6	

EUT View 7	 A black over-ear headset with a flexible boom microphone. The headset is shown from a side profile. A ruler is placed below it for scale, showing measurements in centimeters and millimeters.
EUT View 8	 The same headset as in View 7, but the back cover of the ear cup has been removed, revealing internal electronic components and a USB port. A small, circular black cap is shown next to the headset. A ruler is placed below for scale.
