

LED & boot sequence description

LED	Status	Description
Red	Error	The device may be defective and service is required.
Red (blinking)	Boot process	Can take up to 5 minutes. If it takes much longer, the device may be defective and service is required.
Yellow	Ready for operation	Operational, but not connected to any V:Cloud store.
Blue	Operation mode	The device is linked to a V:Cloud store and is fully operational.

Note: The device might reboot due to possible initial configuration or software updates several times.

The access point is a mobile device and generally be used in such a way that a separation distance of at least 20 centimeters is normally maintained between the RF source's radiating structure(s) and the body of the user or nearby persons.

Certificates

Hereby, SES-Imagotag GmbH declares that the radio equipment AP 2.4 GHz RF module (APG3-0240-A) is in compliance with Directive 2014/53/EU. The full text of the EU Declaration of Conformity is available at the following internet address: https://www.ses-imagotag.com/wp-content/uploads/2019/10/All_AP_s_Conformity.pdf

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION TO USERS

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC rules apply to the following products: AP 2.4 GHz RF module (APG3-0240-A)

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions
