| <p><b>Solder<br/>Board-Component<br/>View 1</b></p> |  A photograph of a green circular printed circuit board (PCB) component with a white cable attached. The component is positioned on a blue textured surface next to a metal ruler. The ruler has two scales: a vertical scale on the left marked from 1 to 17 mm, and a horizontal scale at the bottom marked from 1 to 21 cm. The PCB has several solder points and a small yellow label with a warning symbol and text. The cable is white and ends in a small connector. |
| <p><b>Solder<br/>Board-Component<br/>View 2</b></p> |  A photograph of the same green circular PCB component from a different angle. It is placed on the same blue textured surface next to the same metal ruler. The vertical scale on the left is visible, showing the component's height. The horizontal scale at the bottom is also visible. The component's features, including solder points and the yellow label, are clearly visible from this perspective.                                                              |
