FCC ID: EZSDEIBLE1
Model: DEIBLE1

Information about the integration of DEIBLE1 module into to a host

We want to inform that the assemblage of a DEIBLE1 module inside a host is controlled internally by DEI or its subcontractors, so there is no need to address any special instructions to manufacturers and end users. Once the module is connected onto the main board of the host, the integrated parts are then enclosed in plastic case, and it is not intended to be re-opened again.

Dated this 05th **Day of** December **20** 16
