

FCC Statement:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Working Distance: 10-20m(Barrier-free line)
Working Voltage: 3.1-4.2V
Speaker: 14.2mm
Working Environment: ~10-60°C

Battery Capacity: **1000mAh**
Charging Time: ~2 hours
Charging Power: 5V-500mA
Frequency: **2402-2480MHz**
Standby Time: ~30days

LED Indicator Light

Power on: Blue light flashes.

Ready for Pairing: Red and blue lights flash alternately.

Charging: Power level indicators flash in sequence.

The four battery indicator lights represent the remaining percentage of the headset:

One LED	0-25%	Two LEDs	25-50%
Three LEDs	50-75%	Four LEDs	75-100%

Fully charged: The battery indicator lights are on.

Power off: Red light flashes 3 times

Bluetooth Pairing

1. Press and hold the power key for 2 seconds to the power on. The Power indicator light will flash red and blue, indicating the headset is in pairing mode.
2. Turn on the bluetooth mode of your mobile or other bluetooth device and select the pairing name "MTG BT Neckband Pro+". After the connection is successful, there will be no more flashing lights. (Press the Power key and hold for about 3 seconds again to turn off the power.)
3. The headset will turn off automatically within 5 minutes if no connection is found.

Connect two mobile phones at the same time

1. Connect the headset with your first mobile phone according to the above guidance. Then turn off the bluetooth mode of your first mobile phone.
2. Connect the headset with your second mobile phone according to the above guidance. Then turn on the bluetooth mode of your first mobile phone and select the pairing name "MTG BT Neckband Pro+".

How to Use

Power on: Press and hold the Power key for 2 seconds.

Power off: Press and hold the Power key for 3 seconds.

Answer a call: Click the Multi-function key when call in.
