Introduction of referencing test report

Basic		Additional	
Model	NP545XLA	Model	NP545XLA
FCC ID	A3LNP545XLA	FCC ID	A3LNP545XLA1

We are using test reports for FCC ID A3LNP545XLA to demonstrate compliance for FCC ID A3LNP545XLA1. These two models are electrically identical, they share the same hardware. The difference between the two models is that the A3LNP545XLA1 supports additional LTE and FR-1 5GNR bands that have been enabled through software updates. There are no hardware changes. The data for model A3LNP545XLA is therefore fully representative of model A3LNP545XLA1 for the operating bands they have in common that share the same maximum output power. Additional testing for new bands and for bands with different power settings has been performed on this model for EMC, SAR and Power density. The reports submitted are detailed below:
