

A photograph of a green printed circuit board (PCB) with various electronic components. The board is rectangular and populated with numerous surface-mount components, including resistors, capacitors, and integrated circuits. A large, dark, square component is prominent in the upper left. To its right is a black integrated circuit labeled "Qualcomm SDW812TAQ". In the lower left, there is a small black chip labeled "S6227". The PCB is placed next to a metal ruler for scale. The ruler has markings in centimeters and inches, with the text "STANDARD AT 20°C (68°F)" visible. The background is a dark, textured surface.
