## Attestation Letter

FEDERAL COMMUNICATIONS COMMISSION  
Authorization and Evaluation Division  
7435 Oakland Mills Road  
Columbia, MD 21046

Dear Sir or Madam:

Based on the LoRa specification (chip: LLCC68IMLRT), it supports 860-930MHz frequency band and multiple modulation options (LoRa, GFSK, FSK and other modulation methods). But our product LoRa module (model name: FL22-C8, L-LRMFL22-97NN4, FCC ID: 2AOFDFL22-C8), only supports 902.3-924.9MHz band and FSK modulation, the other frequencies and modulations are disabled by software.

Please contact me if there is need for any additional clarification or information.

Best Regards,  
Sincerely Yours,

Signature:
