Specifications: Frequency Response: 40Hz-20KHz Input: DC 5V

Output: 40 5W Battery Information

Built-in Battery: Lithium Charging Input: USB Type-C Battery Capacity: 3.7V / 800mAh Music playing time: 3 hours Charging time: Approx. 2 hours

Weight: 265g(N.W) Size(mm): 155*48*70mm

*Approximate Playback time depends on individual use and may be more or less than the time specified.

FCC Information

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received; including interference that may cause undesired operation. Federal Communications Commission (FCC) Statement This Equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- . Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV/ technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment. Tested to comply with FCC standard. FOR HOME OR OFFICE USE.

Warning:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.

Battery Information

- · Never use any charger that is damaged.
- Leaving the device in hot or cold places will reduce the Leaving the device in not or cold places will reduce the capacity and lifetime of the batteries.
