

## **Zebra®** MZ Series Mobile Printers

## Quick Start Guide

### Introduction

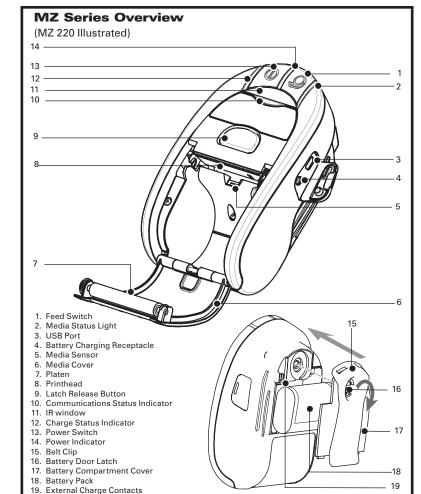

Thank you for choosing one of our Zebra MZ Series Mobile Printers. These rugged printers will become productive and efficient additions to your workplace thanks to their innovative design. Because they are made by Zebra Technologies Corporation, you can be assured of world-class support for all of your bar code printers, software, and supplies.

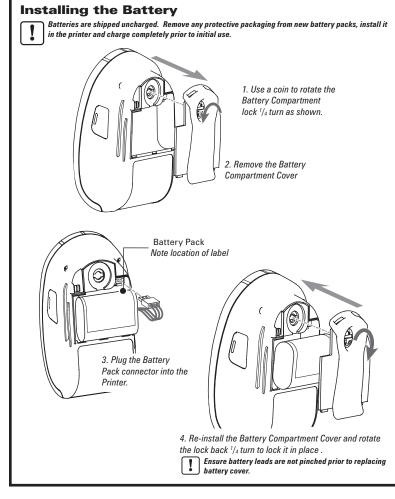

This document provides an easy reference for operating and maintaining the MZ Series Mobile Printers. Complete documentation for this printer series is provided by the MZ Series User Guide available on the Internet at: http://www.zebra.com.

### **Important Safety Information**

Static Discharge and Thermal Printing

Caution • Static Discharge

The discharge of electrostatic energy can damage or destroy the printhead or electronic components used in this device. DO NOT TOUCH the printhead or any exposed electronic

Caution • Printhead

The printhead can become hot after prolonged printing. Use only the supplied cleaning pen to perform maintenance on the printhead.

### **Battery Safety**

Always observe the safety precaution in the Lithium-Ion Battery Technical Bulletin included with

Caution • Short Circuits

Avoid accidental short circuiting of any battery. Allowing battery terminals to contact conductive material will create a short circuit which could cause burns and other injuries or could start

Li-ion Important • Lithium-lon (Li-ion) Battery Disposal

Always dispose of used printer batteries properly. Disposal regulations may vary by location. Refer to the MZ series Users Guide for more battery recycling information.

Caution • Use Zebra Chargers

Use of any charger not approved specifically by Zebra for use with its batteries could cause damage to the Battery Pack or the Printer and will void the warranty.

# Tear Bar Printhead

| Area                             | Method   | Interval   |  |
|----------------------------------|--|--|--|
| Printhead                        | Use a Zebra cleaning pen or a 70% isopropyl alcohol solution on a cotton swab to clean the print elements from end to end (the print elements are located in the thin gray line on the printhead). | After every five rolls of media (or more often, if needed) |  |
| Platen                           | Rotate the platen roller and clean it thoroughly with a Zebra cleaning pen or a 70% isopropyl alcohol solution and a cotton swab.  |  |  |
| Tear bar                         | Clean thoroughly with a Zebra cleaning pen or a 70% isopropyl alcohol solution and a cotton swab.  |  |  |
| Exterior                         | Water dampened cloth   | As needed  |  |
| Media<br>Compartment<br>Interior | Brush/air blow.  | After every five rolls of media (or more often, if needed) |  |

### **Wearing the Printer**

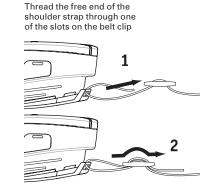

### Belt Clip (standard on all printers)

To use: hook the clip over your belt and ensure that the clip is securely attached to the belt. The belt clip will pivot to allow you to move freely while wearing the Printer.

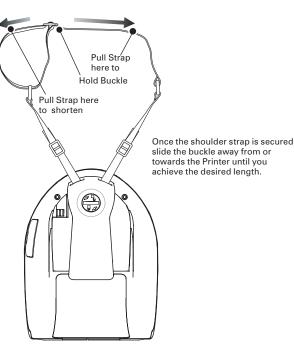

### Adjustable Shoulder Strap (Accessory Kit)

Refer to figure below. Secure each end of the shoulder strap by looping through the slots on the belt clip and securing with the buckle.

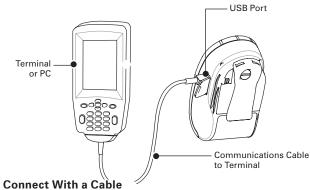

Do the same procedure on the other end of the strap in the remaining slot on the belt clip

# **Connecting the Printer**

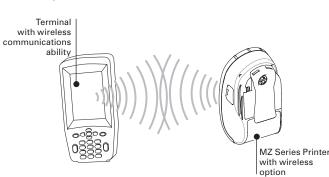

Platen Surface

**Cleaning the Printer** 

Refer to the Label Vista  $^{\text{\tiny{M}}}$  application on the Internet at  $\underline{\text{http://www.zebra.com}}$  for help on setting

If you are connecting to a PC you may need to install the Zebra Universal Driver available on the Internet at : <u>http://www.zebra.com</u>

### Connect by Radio

Refer to the Wireless Quick Start Guide on the Internet at http://www.zebra.com for help on setting up your wireless printer.

### **Troubleshooting**

### **Interpreting Indicators**

sharp objects into the Printer.

The printer's indicators display various printer functions and their status. Check the indicator status, then refer to the Troubleshooting topic referenced in the chart.

Note • Twelve packs of approved cleaning pens are available from Zebra as p/n AN11209-1. Caution • To avoid possible personal injury or damage to the Printer, never insert any pointed or

### **Troubleshooting Topics**

### 1. No power:

- Check that battery is installed properly.
- Recharge or replace battery as necessary.

### 2. Media does not feed:

- Be sure Media Cover is closed and latched.
- Check media compartment. Ensure media is not binding on the sides of the compartment.

### 3. Poor or faded print

- · Clean printhead.
- Check battery for possible damage. Recharge or replace as
- · Check quality of media.

### 4. Partial or missing print:

- · Check media alignment.
- Clean printhead.
- Ensure Media Cover is properly closed and latched.

### 5. No print:

- Replace battery.
- Check cable to terminal.
- (Wireless units only) Restore wireless connection.

### 6. Reduced battery life:

- Check battery date code if battery is one to two years old, short life may be due to normal aging.
- · Recharge or replace battery.

### 7. Flashing Amber indicator:

- Check that media is loaded and that printhead is closed and securely latched.
- · If media is present and latch is closed, indicates that no application is present or application is corrupted. Program must be re-loaded.

### 8. Communication Error:

- (Wireless units only) Check that media is loaded, head is closed and blue communication link light is on.
- · Replace cable to terminal

### 9. Label Jam:

- · Open media cover.
- Generously apply alcohol to Printer in area of jammed label.

### 10. Battery Pack Is Hard to Install

- Do not force the battery into place. Verify you have not pinched any wires between the battery and the printer.
- Verify you are plugging the battery connector into the printer correctly.

### **Resetting an MZ Series Printer**

If the printer has locked up and is not responding to any operator inputs or external commands, ei-ther from a connected terminal or from a linked LAN, you can perform a forced reset as follows:

- 1. Open the media compartment and remove any media.
- 2. Press the Feed button and hold it approximately ten seconds until the Power, Communications and Error indicators turn off and stay off.
- 3. After the three indicators turn off wait ten more seconds and press the Power button. The Printer will restart and normal operation can resume.
